REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Trustees
World Learning, Inc.

Report on the financial statements

We have audited the accompanying consolidated financial statements of World Learning, Inc. ("World Learning"), which comprise the consolidated statements of financial position as of June 30, 2019 and 2018, and the related consolidated statements of activities, and cash flows for the years then ended, and the consolidated statement of functional expenses for the year ended June 30, 2019, and the notes to the consolidated financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to World Learning's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of World Learning's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of World Learning, Inc. as of June 30, 2019 and 2018, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

World Learning, Inc.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2019 and 2018

NOTE 1 - ORGANIZATION

World Learning, Inc. (“World Learning” or the “Organization”), was founded in 1932, and is a private, nonprofit organization working to foster global citizenship through education, training, and field projects in over 60 countries. Educational initiatives provide knowledge and skills and create personal connections to bridge cultural differences. Locally driven international development projects build the foundations of citizen participation in under-represented communities around the world. Connecting people through experiential learning and opportunities to practice what the Organization teaches, World Learning has created a global network of more than 100,000 students and alumni, faculty, staff, and in-country partners working together to inspire and lead effective social change.

Headquartered in Brattleboro, Vermont, USA, with offices in Washington D.C. and operating locations worldwide, World Learning accomplishes its goals through five divisions operating its programs in numerous countries through locally organized legal entities. The Experiment in International Living offers short-term summer exchange programs for high school students. SIT (formerly known as The School for International Training), accredited by the New England Commission of Higher Education (“NECHE”), formerly the Commission on Institutions of Higher Education (“CIHE”) of the New England Association of Schools and Colleges (“NEASC”), provides graduate degrees and professional programs in international and intercultural education including sustainable development, conflict transformation, and social justice. SIT Study Abroad (“SSA”) offers undergraduate study abroad in more than 50 countries. International Honors Program (“IHP”) offers theme-based, multi-country study abroad programs within a semester or academic year that explore a range of themes through an innovative comparative approach. Washington, D.C. based Global Development and Exchange (“GDE”) division specializes in grassroots programs, mostly federally funded, to build local capabilities through development, training, and exchange projects in 9 countries.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies is presented to assist in understanding World Learning’s consolidated financial statements.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of World Learning and its whollyowned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Basis of Presentation

Classification and Reporting of Net Assets

The consolidated financial statements of the Organization have been prepared on the accrual basis of accounting. Net assets and revenues, expenses, gains and losses are classified based upon the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified as follows:

Without donor restrictions - Net assets that are not subject to donor-imposed restrictions or for which restrictions have expired. Also included in this category are net assets designated by the Board of Trustees, including “funds functioning as endowment”. Board designated net assets amounted to \$0 and \$5,378,726 at June 30, 2019 and 2018, respectively.

With donor restrictions - Net assets subject to donor-imposed restrictions that permit the Organization to use or expend the donated assets as specified and are satisfied by either the passage of time or by actions of the Organization. Also included in this category are net assets subject to donor-imposed restrictions that

World Learning, Inc.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

June 30, 2019 and 2018

stipulate that resources be maintained permanently, but may permit the Organization to use or expend part or all of the economic benefits derived from the donated assets.

Revenues are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities, if any, are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law. Expirations of temporary restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the reporting period in which they are received are reported as net assets without donor restrictions contributions in the consolidated statements of activities.

Contributions, including unconditional promises to give, are recognized as revenues in the period received. Promises to give that are scheduled to be received in future periods, or which are restricted by the donor to a specific purpose that has not been met as of the end of the fiscal year, are presented as increases in net assets with donor restrictions. Donor restricted net assets are reclassified to net assets without donor restrictions when the time or purpose restrictions are met.

Bequests are reported as operating revenue in the period in which the Organization has an irrevocable right to the gift, which generally occurs once the will has cleared probate and the amount of the bequest is estimable.

Operations

The consolidated statements of activities present the change in net assets from operating and non-operating activities. Operating activities consist of those items attributable to World Learning's programs. Returns earned on World Learning's endowment and other investments are reported as operating revenue by applying a board approved spending rate of 7% in fiscal years 2019 and 2018 to the rolling 12 quarters average fair value of the endowment and other invested funds as of March 31 of the prior fiscal year. Capital contributions and other nonrecurring items, if any, are reported as non-operating revenue or expense.

Income Taxes

World Learning has been recognized as public charities generally exempt from federal income taxation under provisions of Section 501(a) as described in Section 501(c)(3) of the Internal Revenue Code (the "Code") of 1986, as amended. The organization is subject to tax on income unrelated to its exempt purpose, unless that income is otherwise excluded by the Code. Certain of World Learning's foreign subsidiaries are organized as taxable entities in their respective countries. World Learning has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; to determine its filing and tax obligations in jurisdictions for which it has nexus; and to identify and evaluate other matters that may be considered tax positions.

World Learning follows guidance that clarifies the accounting for uncertainty in tax positions taken or expected to be taken in a tax return, including issues relating to financial statement recognition and measurement. This guidance provides that the tax effects from an uncertain tax position can only be recognized in the consolidated financial statements if the position is "more-likely-than-not" to be sustained if the position were to be challenged by a taxing authority. The assessment of the tax position is based solely on the technical merits of the position, without regard to the likelihood that the tax position may be challenged.

The tax years ending June 30, 2019, 2018, 2017 and 2016 are still open to audit for both federal and state purposes. World Learning has determined that as of June 30, 2019 and 2018, there are no material uncertain tax positions that require recognition or disclosure in the consolidated financial statements. In

World Learning, Inc.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

June 30, 2019 and 2018

addition, World Learning has not recorded a provision for income taxes as it has no material tax liability from unrelated business income activities.

Cash and Cash Equivalents

Cash and short-term investments with maturities of three months or less at the time of purchase are classified as cash equivalents. The carrying value of the cash equivalents, which consist of bank certificates of deposit and institutional money market funds, approximates fair value. Cash is deposited in several banking institutions; at times, cash held in a single institution may exceed federally insured limits. The Organization has not experienced and does not anticipate any losses in such accounts.

Cash and cash equivalents held by investment managers are classified as investments (see Note 5).

Included in cash and cash equivalents at June 30, 2019 and 2018 were \$2,771,681 and \$3,147,442, respectively, of funds held in foreign bank accounts.

Accounts, Notes and Contributions Receivable

Accounts, notes and contributions receivable are stated at their estimated net realizable value. An allowance for uncollectible accounts is provided for those receivables which are considered to be uncollectible based on historical experience and management's evaluation of the likelihood of payment. Accounts are written off after all reasonable collection efforts have been exhausted.

Investments

Investments are stated at fair value and include accrued income. The value of publicly traded securities is based upon quoted market prices and net asset values. Other securities, for which no such quotations or valuations are readily available, are carried at fair value as estimated by management using values provided by external investment managers or appraisers. Management has established procedures in place to evaluate and monitor third-party valuations, including regular communication with fund managers, the review of partnership financial statements and monthly performance metrics, prior to investment and on a regular basis going forward. World Learning believes that these valuations are a reasonable estimate of fair value as of June 30, 2019 and 2018, but are subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for the investments existed.

Split-Interest Agreements

Charitable Gift Annuities

World Learning is a party to several charitable gift annuity agreements whereby the donor contributes assets in exchange for distributions over a period of time. Charitable gift annuities are recognized in the period in which the contract is executed. The difference between the fair value of the assets received and the estimated liability for future distributions is recognized as contribution revenue. The estimated liability related to charitable gift annuities was \$88,543 and \$94,710 at June 30, 2019 and 2018, respectively, and is presented within accounts payable and accrued expenses in the consolidated statements of financial position.

Pooled Life Income Funds

World Learning is the beneficiary of pooled life income funds where the respective assets are controlled and invested by World Learning. World Learning recognizes its estimated remainder interest in the assets as donor restricted contribution revenue in the period in which the assets are received.

World Learning, Inc.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

June 30, 2019 and 2018

Charitable Reminder Unitrust

World Learning is the beneficiary of an irrevocable charitable reminder unitrust. World Learning recognizes its estimated remainder interest in the trust as donor-restricted contribution revenue in the period in which the assets are received.

Prepaid Expenses and Other Assets

Prepaid expenses and other assets consist primarily of amounts paid for programs to be offered in the subsequent fiscal year. Included in prepaid expenses at June 30, 2019 and 2018 were \$1,668,402 and \$2,308,969, respectively, representing advance payments for airfare, program services and other costs related to education-based summer programs.

Property, Plant and Equipment

Property, plant and equipment are stated at cost at the date of acquisition or at fair value at the date of donation in the case of gifts. Depreciation of property, plant and equipment is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

	<u>Estimated Useful Lives</u>
Land improvements	20 - 40 years
Building and building improvements	7 - 40 years
Furniture and equipment	3 - 20 years
Motor vehicles	5 years
Leasehold improvements	Shorter of useful life or lease period

Expenditures for repairs and maintenance are charged to operating expenses as incurred; betterments that materially extend the life of the assets are capitalized. Capital assets are removed from the accounts at the time of disposal, and the resulting gain or loss, if any, is included in non-operating revenues and expenses in the consolidated statements of activities.

Foreign Currency Transactions and Forward Currency Contracts

World Learning enters into forward currency contracts to hedge the risk of currency fluctuations on the anticipated costs of its overseas programs scheduled to run over the next one to twelve months. This hedging reduces the effect of foreign exchange rate movements on World Learning's change in net assets because gains and losses on these contracts partially offset foreign exchange transaction and translation gains and losses on future program transactions.

Forward currency contracts are accounted for as derivative instruments and stated at fair value with gains and losses included in non-operating revenues and expenses in the consolidated statements of activities. Fair values of open contracts are included either in other assets or accrued expenses in the consolidated statements of financial position.

Advance Payments and Deferred Revenue

Advance payments and deferred revenue represent tuition, fees and other receipts which are applicable to programs to be held in future fiscal years.

World Learning, Inc.

Tuition and Fees Revenue

The Organization recognizes tuition and fees revenue in the period which the educational instruction is performed. Accordingly, tuition and fees received in advance are deferred until the educational instruction is provided and related expenses incurred.

Contracts and Grants

Federal grants and contracts normally provide for the recovery of allowable direct costs and indirect costs based on rates negotiated with the federal cognizant agency. World Learning recognizes revenue associated with direct and indirect costs as the related costs are incurred. For financial reporting purposes, all billable direct and indirect costs on federal grants and billable contracts are classified together in grants and contracts expenses.

As stipulated by Office of Management and Budget Guidance for Grants and Agreements 2 CFR 200, subpart E, an organization annually negotiates provisional and final facilities and administrative rate ("indirect rates") with its cognizant federal agency. During the fiscal year, the entity recovers indirect revenue per the approved provisional indirect rate. When indirect revenue recovered exceeds actual indirect costs, the entity recognizes a liability for over-recovered indirect revenue. When actual indirect costs exceed indirect revenue recovered using the provisional indirect rate, the entity does not recognize additional revenue until a new final rate is negotiated with the cognizant federal agency.

In the consolidated statements of activities, program support and general support expenses are presented net of provisional facilities and administrative recovery. The total provisional facilities and administrative recovery for fiscal years 2019 and 2018 were \$9,463,118 and \$11,339,573, respectively.

Allocation of facilities and administrative recovery between program support and general support for fiscal year 2019 and 2018 is summarized as follows:

	<u>2019</u>	<u>2018</u>
Program support	\$ 9,376,110	\$ 11,096,832
Less: Facilities and administrative recovery	<u>(6,074,375)</u>	<u>(7,540,816)</u>
Program support, net	<u>\$ 3,301,735</u>	<u>\$ 3,556,016</u>
	<u>2019</u>	<u>2018</u>
General support	\$ 14,542,399	\$ 16,320,504

General support, net	<u>\$ 11,153,656</u>	<u>\$ 12,521,747</u>

Auxiliary Services

Auxiliary services revenue and expense include residence halls at the Brattleboro campus, dining halls, and other undertakings which provide services primarily to students, faculty and staff where such revenues and expenses are separately billed. Auxiliary services revenues and related expenses are reported within net assets without donor restrictions in the consolidated statements of activities.

Fundraising Expenses

Fundraising costs of \$1,438,426 and \$1,828,953 for the years ended June 30, 2019 and 2018, respectively, were included with general support in the consolidated statements of activities.

Functional Expense Allocation

The consolidated financial statements report certain categories of expenses that are attributable to more than one program or supporting function. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include depreciation, information technology, facilities management, occupancy, and salaries and benefits, which are allocated as follows:

Expenses	Basis
▪ Depreciation related to buildings, land improvement, and vehicles:	Square footage
▪ Depreciation related to furniture, equipment, and software:	Headcount
▪ Salaries and benefits:	Timesheet
▪ Information technology:	Headcount
▪ Facilities management:	Square footage

Gifts-in-Kind

Gifts-in-kind are generally defined as non-cash donations. Examples of such gifts received include equipment and software. Donated materials and equipment, if any, are recorded at the lower of either their estimated values at date of receipt or the prevailing discounted pricing for educational institutions.

Use of Estimates

The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates include the allowance for uncollectible accounts, economic useful lives of buildings and equipment, fair values of investments, beneficial interests in split-interest agreements and present values of annuity payment liabilities. Actual results could differ from those estimates.

Subsequent Events

World Learning has evaluated events and transactions for potential recognition or disclosure through December 13, 2019, which was the date these consolidated financial statements were available to be issued.

Recent Accounting Pronouncements

During fiscal 2019, World Learning adopted Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) No. 2016-14; *Presentation of Financial Statements of Not-for-Profit Entities*. This guidance was intended to provide more useful information to donors, grantors, creditors, and other financial statement users. Main provisions of the guidance include: presentation of two classes of net assets versus the previously required three; as requiring additional disclosures for expenses by nature and function and for the liquidity and availability of resources.

Revenue from Contracts with Customers (Topic 606)

In August 2015, the FASB issued ASU No. 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date* ("ASU 2015-14"). ASU 2015-14 defers by one year the effective date of ASU No. 2014-09, *Revenue from Contracts with Customers* ("ASU 2017-09"). The deferral results in ASU 2014-09 being effective for fiscal years beginning after December 15, 2018. World Learning does not believe that the adoption of this guidance will have a material impact on its consolidated financial statements.

ASU 2018-08, Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made ("ASU 2018-08").

In July 2018, the FASB issued ASU 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made* ("ASU 2018-08"). The ASU provides (1) a framework for determining whether a particular transaction is an exchange or a contribution and (2) guidance to assist entities in determining whether a contribution is either conditional or unconditional. The ASU is effective for fiscal year 2020 for World Learning. The amendments in ASU 2018-08 apply to both recipients and resource providers. World Learning does not believe that the adoption of this guidance will have a material impact on its consolidated financial statements.

Leases (Topic 842)

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)* ("ASU 2016-02"). ASU 2016-02 establishes a comprehensive new lease accounting model. The new standard clarifies the definitions of a lease, requires a dual approach to lease classification similar to current lease classifications, and causes lessees to recognize leases on the balance sheet as a lease liability with a corresponding right-of-use asset for leases with a lease term of more than twelve months. The new standard is effective for annual periods beginning after December 15, 2021. Early adoption is permitted. The new standard requires a modified retrospective transition for capital or operating leases existing at or enter into after the beginning of the earliest comparative period presented in the consolidated financial statements, but it does not require transition accounting for leases that expire prior to the date of the initial application. World Learning does not believe that the adoption of this guidance will have a material impact on its consolidated financial statements.

Reclassifications

Reclassifications were made to the 2018 consolidated financial statements to conform to the 2019 presentation.

Included in federal grants and contracts are receivables from third parties for whom World Learning is a subcontractor or sub-grantee. The total receivables from third parties included in federal grants and contracts receivable was \$1,449,066 and \$777,540 as of June 30, 2019 and 2018, respectively.

World Learning makes uncollateralized loans to students based on financial need. Student loans are funded through federal loan programs and institutional resources.

At June 30, student loans consisted of the following:

	<u>2019</u>	<u>2018</u>
Federal	\$ -	\$ 18,196
Institutional	200,873	204,053
	200,873	222,249
Allowance for uncollectible accounts	<u>(101,690)</u>	<u>(98,490)</u>
Student loans receivable, net	<u>\$ 99,183</u>	<u>\$ 123,759</u>

World Learning participated in the Federal Perkins Loan program in prior years. The availability of funds (annually) for new loans under this revolving loan program is dependent on both 1) reimbursements to the pool from repayments on outstanding loans, and 2) outstanding loans cancelled, either from loan recipients meeting qualified career service accomplishments, or from loan default. World Learning liquidated the Perkins loan program and remitted the federal share of the remaining cash balance to the Department of Education in July 2018. At June 30, 2019 and 2018, the following amounts were past due under student loan programs:

	<u>1-60 Days Past Due</u>	<u>60-90 Days Past Due</u>	<u>90+ Days Past Due</u>	<u>Total Past Due</u>
2019	\$ -	\$ -	\$ 84,536	\$ 84,536
2018	-	-	134,905	134,905

Allowances for uncollectible accounts are established based on prior collection experience and current economic factors which, in management's judgment, could influence the ability of loan recipients to repay the amounts per the loan terms. Institutional loan balances are written off only when they are deemed to be permanently uncollectible. Amounts due under the Perkins loan program are guaranteed by the government and, therefore, no reserves are placed on any past due balances under this program.

World Learning categorizes its investments as follows:

Fixed-Income Strategies

Fixed-income investments, both core and global, include cash, cash equivalents, and direct and indirect investments in bonds and other income securities. The purposes of these fixed-income allocations are to provide a deflation hedge and to reduce the overall volatility of the portfolio through additional diversification. Investments in cash and cash equivalents are also intended to preserve liquid capital for future investment or other cash needs of World Learning. Cash equivalents must carry a Standard & Poor's rating of at least A1 or an equivalent rating.

Equity Strategies

Domestic equity investments include direct and indirect investments in equity securities of U.S. companies of all sizes. The purpose of the equity allocation is to provide a total return that will provide for both growth in principal and, to a lesser extent, current income.

International equity investments include direct and indirect investments in equity securities of companies located in developed, emerging and frontier market countries outside the U.S. In addition to sharing the purpose of the domestic equity allocation, international equity investments allow exposure to countries that may be growing faster than the United States.

Asset Allocation Strategies

Asset allocation strategy includes balanced strategy funds and risk parity funds. Balanced strategy portfolios are constructed using domestic and international/emerging equities and global fixed-income securities. Balanced strategy managers are allowed to tactically allocate to undervalued asset classes, sectors, or countries and may be allowed to use derivatives as a way of obtaining a desired long or short market exposure through over-the-counter and exchange-traded derivatives securities. Risk parity fund invests globally across stocks, bonds, currencies and commodities, allocating smaller amounts of capital to assets that are risky and larger amounts to assets that are less risky. Investment managers balance risk allocation across the four asset classes, but they have the ability to exploit tactical opportunities by making modest adjustment towards assets that they believe attractive and away from one they believe are less attractive.

Hedge Funds

Hedged equity investments include direct investments in limited partnerships using marketable or semi-marketable strategies such as long/short equity or event-driven strategies. These investments have exposure to both long and short positions in a wide range of underlying investments focusing on public and private equity.

Private Equity Funds

Private equity investments include investments in limited partnerships that invest in equity or debt that are not publicly traded, in the equity of start-up companies, or in companies embarking on new ventures or restructuring/turnaround plans.

Real Estate Funds

Real estate funds may include investments in limited partnerships and/or in commingled vehicles. The real estate manager is expected to utilize prudent underwriting criteria taking into consideration such items as market analysis, physical condition of the properties and tenancy.

Energy Infrastructure Funds

Energy infrastructure funds include investments in portfolios of fixed-income and equity securities issued by power and energy infrastructure companies. The funds seek total return through current income and capital appreciation.

Alternative Mutual Funds

Alternative mutual funds are publicly offered, SEC-registered mutual funds that hold non-traditional investments or use complex investment and trading strategies. These strategies may include, but are not limited to, shorting securities, holding concentrated positions, buying and selling options, pairs trading and hedging portfolio risk using market indices.

NOTE 6 - FAIR VALUE MEASUREMENTS

US GAAP establishes a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurements. World Learning classifies its assets and liabilities accounted for at fair value based on the following valuation techniques:

Level 1 - Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that are available at the measurement date;

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly; and

Level 3 - Inputs that are unobservable, used in situations in which little or no market activity exists for the asset or liability at the measurement date.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The methods used for valuing securities are not necessarily an indication of the risks associated with investing in those securities.

World Learning, Inc.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

June 30, 2019 and 2018

The following is a description of the valuation methodologies and inputs used for assets and liabilities measured at fair value, as well as the general classification pursuant to the valuation hierarchy:

Investments

Investments where values are based on quoted market prices in active markets are classified as Level 1. These investments are primarily money market funds and mutual funds. Investments where values are based on quoted prices for similar assets in active markets, on quoted prices for identical or similar assets in markets that are not active, or on inputs that are derived principally from or corroborated by observable market data are classified as Level 2. Other investment strategies are considered Level 3 if observable inputs do not exist and management is required to use pricing models or other significant estimation methodologies in determining fair value.

Alternative Investments

The Organization's alternative investments consist of private equity and hedge funds as well as real estate, commodities, energy infrastructure, and mutual funds which are considered alternative strategies, valued using current estimates of fair value obtained from the investment managers, in the absence of publicly quoted market prices. Alternative investments containing private equity holdings generally reflect discounts for liquidity and consider variables such as earnings multiples, cash flow projections, recent equity sales prices, and other pertinent information in estimating fair values. The estimated fair value of alternative investments is based on the most recent valuations provided by the external investment managers. Because of inherent uncertainties in the valuation process, the investment managers' estimates may differ from the values that would have been used had a ready market existed. World Learning management is responsible for the fair measurement of investments reported in its consolidated financial statements and has implemented policies and procedures to assess the reasonableness of the fair values provided and believes that reported fair values in the consolidated statements of financial position are reasonable.

As a practical expedient, the Organization is permitted under US GAAP to estimate the fair value of an investment at the measurement date using the reported net asset value ("NAV") without further adjustment unless the entity expects to sell the investment at a value other than NAV or if the NAV is not calculated in accordance with US GAAP. The Organization's investments in commodities, equity, balanced strategies, hedge funds, private equities and real estate funds are fair-valued based on the most current NAV.

Forward Currency Contracts

The forward currency contracts are measured by alternative pricing sources with reasonable levels of price transparency in markets that are not as active, and may therefore be less efficient and less liquid, than the more mature Level 1 markets. These markets do however have comparable, observable inputs by which an alternative pricing source values these assets in order to arrive at fair market value. Based on these characteristics, forward currency contracts are classified as having Level 2 inputs.

Gift Annuities and Pooled Life Income Funds

Liabilities associated with split-interest agreements are recorded based on non-recurring fair value measurements and are recorded at the present value of future cash flows expected to be paid to beneficiaries based upon actuarial lives, which is considered to be a Level 3 input.

NOTE 7 - ENDOWMENT FUNDS

World Learning's endowment consists of approximately 80 individual funds established for a variety of purposes, including donor-restricted endowment funds and prior to May 2019 also included funds designated by the Board of Trustees to function as endowments (quasi-endowment).

Interpretation of Relevant Law

World Learning has continued to follow its policy, under the Uniform Prudent Management of Institutional Funds Act ("UPMIFA"), of requiring the preservation of the original value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, World Learning classifies as net assets with donor restrictions (a) the original value of gifts donated to permanent endowment, (b) the original value of subsequent gifts to permanent endowment, if any, and (c) accumulations to permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund, if any. The remaining portion of the donor-restricted endowment funds are classified as net assets with donor restrictions until

World Learning, Inc.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

June 30, 2019 and 2018

they are appropriated for expenditure in a manner consistent with the donor's intentions, World Learning's spending policy and in a manner consistent with the standard of prudence prescribed by UPMIFA.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the original value. At June 30, 2019, the fair value of five endowment accounts was less than original value (underwater) by a total of \$49,475, which together had an original gift value of \$2,283,997 and a current fair value of \$2,234,522. At June 30, 2018, the fair value of three endowment accounts was less than original value (underwater) by a total of \$29,756, which together had an original gift value of \$214,998 and a current fair value of \$185,242.

Endowment Investment and Spending Policy

The endowment fund is used to support the operations of World Learning. Endowment fund investments and other assets in the investment portfolio are managed in accordance with the total return concept and the goal of maximizing long-term return within acceptable levels of risk. The spending policy directs the Investment Committee with input from World Learning Staff to set a spending rate each year at the winter Board meeting. For the years ended June 30, 2019 and 2018, World Learning employed an endowment spending model rate of 7%, respectively, based on a twelve quarter trailing average of the fair value of endowment fund and other invested funds as of March 31 of the prior fiscal year. The spending policy is designed to provide a stable level of financial support and to preserve the real value of the endowment.

Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions. Donor restricted amounts reported below include appreciation and depreciation reported as net assets with donor restrictions. The underwater amount of endowment funds is reported as net assets with donor restrictions.

Strategies Employed for Achieving Objectives

The primary objective is to utilize a total return approach with a cross section of fixed income, equity and alternative strategies that combine income and dividend growth for inflation protection and earnings growth and credit enhancement for appreciation.

Endowment net assets totaled \$38,277,610 at June 30, 2019 and were included within with donor-restricted net assets.

Endowment net assets were as follows at June 30, 2018:

	<u>Without Donor Restrictions</u>	<u>With Donor Restrictions</u>	<u>Total</u>

NOTE 15 - CONTINGENCIES

World Learning receives significant funding from several U.S. government agencies in the form of grants and contracts. Expenditures of funds under these programs require compliance with the agreements, applicable regulations and are subject to audit. Any disallowed expenditures resulting from such audits become a liability of World Learning in the year assessed. In the opinion of management, such adjustments, if any, are not expected to have a material effect on World Learning's consolidated financial position, change in net assets and cash flows.

Various legal claims arise from time to time in the normal course of business. In the opinion of management, the resolution of such claims is not expected to have a material effect on World Learning's consolidated financial position, change in net assets and cash flows.
